DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 12-18, 20-24 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Hatsuda '076 substantially for the reasons of record.

The amendments and remarks filled by applicants on 4/14/10 have been fully considered. Arguments have not been persuasive. The examiner submits that changes to the claims have included process conditions. However, claims relate to the article. There is no evidence on the record that the claimed article would have a different structure than the prior art article.

Regarding silicic acid arguments, the examiner submits that it would have been obvious to one having ordinary skill in the art to choose silicic acid as water insoluble powder since such would improve structure of absorbent polymer.

Claim 14 would be allowable if rewritten in the independent form including all the limitations of the preceding claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
